## SUCCESS STORY

### INDUSTRY:

Manufacturing

### OFFERING:

Azure Datacenter Migration

### CUSTOMER OVERVIEW

Founded in 1985, this manufacturer is part of a conglomerate, which has been offering a wide range of products and solutions for more than 6 decades. The group is involved in diverse businesses including Polyester & Polypropylene films, Steel pipes, Thermal Power Generation and Photographic products.

## CUSTOMER SITUATION

- The manufacturer was looking for a reliable & high performance solution to host their VMs on Cloud
- To reduce overall on-premise server & datacenter footprint thus lowering the TCO.
- Zero impact to production during / post migration, increased reliability and agility, on-demand resources availability.
- Cloud platform should have DR within India in a different seismic zone

## SOLUTION

- Azure Pay-As-You-Go has helped in reducing the OpEx for infrastructure.
- Automated migration using Azure Site Recovery has helped in achieving no-data loss and minimum downtime (planned) migration.
- Azure Backup and Azure site Recovery are managed services of Azure providing enterprise class backup and recovery services
- Effective and low cost DR within India and in different seismic zone
- Improved performance of application versus onpremise performance
- Post successful migration of these application Azure is now a preferred platform for new application deployments
